

FRAMEALL™ Drywall Grid 6' Cross Tee

*A FrameAll™
Drywall Grid Solution*

FrameAll grid system with the 6' cross tee, XL8965

6' Drywall Grid Cross Tee: Speeds installation and reduces material costs.

KEY SELECTION ATTRIBUTES

- 6' cross tees and main beam spacing reduce the need for hanger wire drops, this will speed time to install and save labor
- Supports 1 layer of 5/8 gypsum board with 4' wires on mains, will support up to 2 layer of gyp (see load chart for tee and wire spacing)
- Knurled Ridges on cross tees improve screw grab during board application
- Extra rout holes to accommodate F-Type light fixtures
- FrameAll Drywall Grid is part of the Sustain™ portfolio and meets the most stringent industry sustainability compliance standards today
- Rotary stitching on double web adds strength and stability
- G40, .018" metal thickness meets ASTM C645
- Acceptable for use in all Seismic Design Categories
- UL® fire rated
- Sourced and manufactured in the USA

MATERIALS

Meets ASTM A653 for zinc-coated hot dipped galvanized steel. Surfaces are chemically cleansed, zinc-coated, and prefinished. Materials also conform to the performance standard ASTM C645 (Standard Specification for Rigid Furring Channels for Screw Applications of Gypsum Board) and ASTM C635 for Specification for manufacturing and performance of Metal Suspension systems.

INSTALLATION NOTES

1. Main beam 6' O.C.
2. Hanger wire 2', 3', or 4' O.C.
3. Rout holes for Type F light fixture
4. Reduction in hanger wire and main beam
5. UL® Fire Rated: Fire Guard™ components meet UL Design Listings D501, D502, G523, G524, G526, G527, G528, G529, G531, J502, L502, L508, L513, L515, L525, L526, L529, L564, P501, P506, P507, P508, P509, P510, P513, P514.
6. Faster installation
7. Tees 16" O.C. support two layers of 5/8" gypsum board (with hanger wire 42" O.C. along main beams)
8. Tees 24" O.C. support one layer of 5/8" gypsum board (with hanger wire 48" O.C. along main beams)
9. Gypsum board attached to cross tees
10. Bridging on cross tees requires extra wire for weight of light fixtures, diffusers, and other mechanical

Ideal for 15' wide Bedrooms in
Condos and Hotels

Need only two rows of
main beams 6' O.C.
Then cut border tee in half
(no waste).
