

SheetFelt 9mm and 12mm combine a time-tested texture with exceptional sound absorption capabilities and a full palette of colors in a product geared for occupant comfort. The sheets can be customizable to get the desired result, where colors and sizes can be mixed to generate movement and multiple design options.

Our Felt portfolio goes from linear systems and large-format panels to clouds and open cell, all constructed with high recycled content. Felt is a versatile material that's soft to the touch, kind to the ears, and easy on the eyes.
