WoodWorks Open Cell 24" x 48" panels in Carbon Grey, wall-to-wall installation

CAD/Revit® drawings at:  
[armstrongceilings.com/cadrevit](http://armstrongceilings.com/cadrevit)

A decorative, solid wood ceiling that is 100% accessible.

## KEY SELECTION ATTRIBUTES

- (new)** Standard finishes on solid poplar are tinted to replicate naturally occurring wood tones
- (new)** Panels are part of the Sustain® portfolio and meet the most stringent industry sustainability compliance standards today
- FSC® certified wood available as a premium quoted option
- (new)** The natural warmth of wood can contribute to biophilic designs and building certification standards like the WELL™ v2 "Nature and Place" feature
- Get total noise control and design flexibility with Total Acoustics® ceiling panels: NRC + CAC = Total Acoustics
- Enhance space volume with open-structure design
- Mix panel sizes for a variety of looks
- Select products included in the FAST134 program – ready to ship in 4 weeks or less
- Vector edge detail provides safe and secure downward accessibility without tools and narrow reveal visual (1/4")
- Suspension system, trim, and accessories designed and tested to work with WoodWorks® Open Cell panels
- CleanAssure™ family of products – includes disinfectable panels, suspension systems, and trim

## FINISH RANGES ON SOLID POPLAR

Our tinted finishes allow the natural character of the poplar to shine through. The images here reflect the visual range that is likely within our product. Installers will want to lay out panels before installing to achieve preferred aesthetic.

Bleached Grey (GBG)

Classic Grey (GCG)

Carbon Grey (GCB)

Rich Mahogany (GRY)

Antique Oak (GAO)

Red Oak (GRK)

English Chestnut (GEC)

Golden Maple (GGM)

Natural Walnut (GWN)

Warm Oak (GWO)

Forest Walnut (GFW)

## CUSTOM FINISHES

Custom Wood Species and Finishes Available

Panel backers are black.  
Made-to-order, custom backer colors available.

## LEGACY FINISHES

Maple (GMP)

Light Cherry (GLC)

Dark Cherry (GDC)

White (GWH)\*

Due to printing limitations, shade may vary from actual product.

\* Painted White finish is not included in the Sustain® portfolio.

### SYSTEM INSTALLATION DETAILS

### PHYSICAL DATA

#### Material

Solid wood (poplar)

#### Surface Finish

Clear or tinted semi-gloss coating.

#### Fire Performance

Solid Poplar Hardwood – Class C ASTM E84 surface burning characteristics. Flame Spread Index 200 or less. Smoke Developed Index 450 or less.

Flame stop coating is available as a custom option. Contact ASQuote@armstrongceilings.com for details.

WoodWorks® Open Cell panels, as with other architectural features located at the ceiling, may obstruct or skew the planned fire sprinkler water distribution pattern, or possibly delay or accelerate the activation of the sprinkler or fire detection systems by channeling heat from a fire either toward or away from the device.

Designers and installers are advised to consult a fire-protection engineer, NFPA 13, and local codes for guidance where automatic fire detection and suppression systems are present. For more information, visit armstrongceilings.com/woodworks

#### Application Considerations

Variation among panels may occur due to the natural characteristics of the wood and grain.

#### Design Considerations

It is very important that WoodWorks panels are climatized prior to installation. Relative humidity between 25% and 55%, and temperatures between 50°F and 86°F, must be maintained. Exposed, unpainted back of Axiom® trim may be visible when using higher trims on full-size panel installation only.

#### Installation Consideration

Do not cut panels.

#### Seismic Restraint

WoodWorks Open Cell panels have been engineered, tested, and approved for application in all seismic areas when installed per Armstrong Ceilings installation instructions.

#### Cleaning and Disinfecting

Cleaning and CDC-approved disinfecting options available on armstrongceilings.com/cleaning

#### FAST134 Program Considerations

Size of Job Matters: Big jobs, over 2,500 SF or 50 pieces for shapes/vertical elements will have longer lead times.

Location Matters: Transit time not included. We are ready to ship in 1 week on FAST1 items. However, transit to the states west of Wyoming may add time.

Distributor Truck Schedule Matters: We rely on distribution to help move products around the country. When speed matters, work with your local distributor to ensure FAST134 service.

Stock vs. Made-to-Order Matters: FAST3 & FAST4 items are made-to-order and will ship direct to distributor. FAST1 (stocked items) will go through distribution and depend on distributor truck schedules.

#### Warranty

Details at armstrongceilings.com/warranty

#### Weight (Bulk Packaged)

Refer to visual selection chart.
