MetalWorks™ Linear – Classics ceiling system in Effects™ Walnut Espresso with custom color filler strips

Durable, metal panels in more widths for a variety of flexible and unique acoustical interior/exterior solutions.

KEY SELECTION ATTRIBUTES

- Universal suspension system will enable easy installation and a clean finished visual
- Nominal 2", 4", 6", 8", 10", and 12" wide panels, including nominal 1" reveal (contact ASQuote for custom capabilities at asquote@armstrongceilings.com)

- Discontinuous ceilings possible with Effects™ trim or Axiom® trim, using the Adjustable Trim Clip
- Mix and match widths for a striated visual
- CleanAssure™ family of products – includes disinfectable panels, suspension systems, and trim

- *new* Select products included in the FAST134 program – ready to ship in 4 weeks or less
- Install in the ceiling, on the wall
- Create 90° angled or curved ceiling-to-wall transitions

- Available for exterior applications when using M1 planks. Tested to meet wind uplift Classes 30, 60, 90
- Acoustical options with microperforated panels
- Fast and easy installation

PHYSICAL DATA

Material
Electrogalvanized Steel – thickness 0.028"

Surface Finish
Available in White, Silver Grey, Gun Metal Grey, Tech Black, and Effects™ Wood Looks powder-coated, post-production finishes. Natural Reflections finishes and other colors are available as custom. Contact ASQuote@armstrongceilings.com.

Edge Detail
Square with extended flange. To create contrast visual, flange is covered with 1-1/4" Black Contrast Filler Strip Item 5494.

Fire Performance
Class A: ASTM E84 and CAN/ULC S102.
Flame Spread Index 25 or less. Smoke Developed Index 50 or less.

ASTM E1264 Classification
Fire Class – Class A
Unperforated – Type XX, Pattern G
Perforated – Type XX, Pattern C

Design Considerations
While we strive to ensure exact color matches, various factors such as differences in materials and painting processes can affect how colors appear on ceiling and wall panels, suspension systems, and trim products. Due to these and other differences, items with the same finish name will coordinate but may not be an exact color match.

Seismic Restraint
MetalWorks Linear panels have been engineered, tested, and approved for application in all seismic areas when installed per Armstrong Ceilings installation instructions.

Wind Uplift Performance
All panels tested for wind uplift Classes 30, 60, and 90. Specific installation recommendations to meet these wind classes are available. There is no acoustical fleece on exterior panels. For more information, contact TechLine at 1 877 276 7876.

FAST134 Program Considerations
Size of Job Matters: Big jobs, over 2500 SF or 50 pieces for shapes/vertical elements will have longer lead times.

Location Matters: Transit time not included. We are ready to ship in 1 week on FAST1 items. However, transit to the states west of Wyoming may add time.

Distributor Truck Schedule Matters: We rely on distribution to help move products around the country. When speed matters, work with your local distributor to ensure FAST134 service.

Stock vs Made-to-Order Matters: FAST3 & FAST4 items are made-to-order and will ship direct to distributor. FAST1 (stocked items) will go through distribution and depend on distributor truck schedules.

Cleaning and Disinfecting
Cleaning and CDC approved disinfecting options available on armstrongceilings.com/cleaning
